Ford Transit Diesel Fuel Filter Service Wrench

Yearak Holdings
LLC

RE: 3.2L I5 DIESEL TRANSIT

A new service tool is now available to facilitate in removal and installation of fuel filters on the 3.2L Diesel Transits. This tool was created by a Ford senior master technician after being frustrated with the constant breakage, and hassle involved in removing fuel filter housings. This specialized tool is patent pending, fully CNC machined from top of the line alloys. Which provides an exact fit to the filter housing.

Here are some benefits

1. Eliminates Breakage
2. Decreases service time
3. User friendly for entry level technicians
4. Improves technician's productivity

YEARAK HOLDINGS LLC Currently has a u.s. patent pending on the design and is proud to offer this specialty tool for \$150.00 USD. Shipping and taxes apply. Contact for special promotional offers on multiple tool purchases.
